

Transparent AB Silicone UV Coating Low-Odor Traceless and Cruelty-Free

Our Product Introduction

for more products please visit us on uvprintink.com

Basic Information

- Place of Origin: China
- Brand Name: Tucai
- Model Number: primer
- Minimum Order Quantity: 1 bottle
- Price: \$/28/bottle
- Delivery Time: 7
- Payment Terms: L/C, D/A, D/P, T/T, Western Union

Product Specification

- Spf: None
- Cruelty-Free: Yes
- Feature: Environment Friendly
- Application: For Silicone
- Color: Transparent
- Waterproof: Yes
- Property: 1000 MI
- Smell: Low Odor
- Highlight: **Cruelty-Free AB Silicone UV Coating,
Low-Odor AB Silicone UV Coating,
Traceless AB Silicone UV Coating**

Product Description:

One of the key benefits of this primer is its ability to inhibit the effects of UV radiation. UV radiation can cause silicone-based materials to degrade and break down over time, leading to discoloration, cracking, and other forms of damage. By applying the UV Inhibiting Primer, you can protect your silicone-based materials from these harmful effects and extend their lifespan.

In addition to its UV resistance, the UV Inhibiting Primer is also waterproof, making it an ideal choice for outdoor applications. The primer forms a durable, waterproof barrier that helps to prevent moisture from penetrating the surface of the silicone-based material. This can help to prevent damage from water, such as mold and mildew growth, and can also help to maintain the appearance of the material over time.

Another key benefit of the UV Inhibiting Primer is its low odor. Unlike some other types of primers that can have a strong, unpleasant odor, this primer has a low odor that is much more tolerable. This makes it easier to work with and more pleasant to use.

Finally, it's important to note that the UV Inhibiting Primer is cruelty-free. This means that it has not been tested on animals and is a more ethical choice for those who are concerned about animal welfare.

In summary, the UV Inhibiting Primer is a high-quality primer that offers exceptional UV resistance and waterproofing for silicone-based applications. It can help to protect your materials from the harmful effects of UV radiation and moisture, while also providing a low odor and cruelty-free formulation for a more pleasant and ethical application.

Features:

- Product Name: UV Primer
- Low Voc: Yes
- Property: 1000 MI
- Application: For Silicone
- Spf: None
- Waterproof: Yes
- Features:
 - UV Protecting Primer
 - UV Shielding Primer
 - UV Base Coat

Technical Parameters:

Product Attribute	Value
-------------------	-------

Product Name	UV Shielding Primer
SPF	None
Property	1000 ml
Cruelty-Free	Yes
Low VOC	Yes
Feature	Environment Friendly
Formulation	Liquid
Application	For Silicone
Smell	Low Odor
Color	Transparent
Waterproof	Yes

Applications:

The Tucai UV Inhibiting Primer is perfect for a wide range of application occasions and scenarios. It is specifically designed to work with silicone-based materials, making it ideal for use in construction, automotive, and marine industries. Whether you are working on a large-scale project or a small DIY project, this primer is an essential tool to ensure the success of your project.

One of the standout features of the Tucai UV Inhibiting Primer is its low odor. Unlike other primers on the market, this product has been specially formulated to emit minimal odor, making it a more pleasant and safer option to use. Additionally, the primer is environmentally friendly, ensuring that you can complete your project without harming the environment.

The Tucai UV Inhibiting Primer is also low VOC, which means that it emits fewer harmful chemicals than other primers. This makes it a safer and healthier option to use, especially if you are working on a project in a poorly ventilated area.

When it comes to protecting your project against UV rays, the Tucai UV Inhibiting Primer is the perfect solution. Its unique formula is designed to resist harmful UV rays, ensuring that your project stays protected and looking great for years to come. Whether you are working on a construction project, a car, or a boat, this primer is an essential tool to ensure the longevity of your project.

Order now and receive your Tucai UV Inhibiting Primer in just 7 days. Don't wait any longer to protect your project from UV rays. Order today and experience the difference that the Tucai UV Resistant Primer can make!

Customization:

Support and Services:

The UV Primer product is designed to provide a durable and long-lasting base coat for various surfaces. Our technical support team is available to answer any questions you may have about the product's application, compatibility, or performance. Additionally, we offer a range of services to help you get the most out of the product, including:

Training and education on proper application techniques

Custom color matching services to meet your specific needs

On-site technical support for large-scale projects

Product demonstrations and trials

Product testing and analysis to ensure optimal performance

Our goal is to provide you with the support and services you need to achieve the best results with the UV Primer product. Contact us today to learn more.
